COOPERATIVE

The world is changing. Not only the banking landscape has changed greatly over the last two decades as a result of low interest rates and new regulations. Factors such as digital transformation or climate change affect us all. As “The bank for a changing world”, we support our clients in their daily challenges and assist them in successfully exploiting their opportunities – in Germany as well as all over the world. With our stable international positioning, innovative digital solutions and a sense of responsibility, we want to shape change together with our partners.

Our clients are supported by around 5,300 employees in Germany and more than 202,000 employees in 72 countries worldwide. We support companies, institutions and retail clients in implementing their projects with our international network. Whether it is financial, investment, savings or hedging services – as a universal bank we offer solutions for virtually everything. BNP Paribas is a market leader in many areas or occupies key positions on the market.

INNOVATIONS THAT HELP SHAPE DIGITAL CHANGE
GROWING NATIONWIDE

BNP Paribas in Germany
BNP Paribas has been serving its clients in Germany since 1947. Retail, corporate and institutional clients are supported nationwide in all relevant economic regions by around 5,300 employees. The wide-ranging products and services offered by BNP Paribas are equal to that of an innovative universal bank.

AS ONE OF THE LEADING EUROPEAN BANKING GROUPS, A STRONG PRESENCE IN GERMANY IS PARTICULARLY IMPORTANT FOR OUR GLOBAL GROWTH AMBITIONS. WE WILL CONTINUE TO INVEST IN POSITIONING THE GROUP LOCALLY IN THE LONG TERM.

Lutz Diederichs
CEO BNP Paribas Germany
AS A DIGITAL DIRECT BANK, WE OFFER OUR CLIENTS EXCELLENT SERVICES, INNOVATIVE PRODUCTS AND CONVINCING CONDITIONS. WE ARE HELPING TO SHAPE THE BANKING OF THE FUTURE.

Dr Sven Deglow
CEO Consorsbank and DAB BNP Paribas

We strive to support our clients and partners in Germany on a long-term basis. The German market is an important cornerstone in our global network. The BNP Paribas Group is investing strongly here to further expand and sustainably strengthen this productive and export-driven growth market. The goal is to increase earnings in Germany to two billion euros by 2020, which is the equivalent to an annual increase of eight per cent.

As we are independent of a branch business in Germany, we can fully concentrate on further digitisation and strategies to increase earnings. Our broad positioning makes us less vulnerable to cyclical fluctuations. 12 business units in Germany alone provide solutions for our clients – from retail business to business with corporates and institutions. One particular focus is on intensifying our client relationships in the German SME sector. We support German companies wishing to operate and expand internationally with the BNP Paribas Group’s global presence and our broad product range.
Our goal: sustainability
As one of the leading financial institutions in Europe, we have a huge responsibility towards society and the environment. With the goal of a more sustainable, fairer world in mind, we are engaged in social and ecological initiatives on a daily basis. BNP Paribas Group set up the Company Engagement department in September 2017 to coordinate the numerous projects and firmly establish sustainable commitment as part of the corporate culture. We have set out this ambition in a written self-commitment to sustainable and responsible business: in our Engagement Manifesto.

At the heart of our commitment there is a real ambition and key imperative to corporate social responsibility, ethics, diversity and inclusion, and promoting human rights in the countries where we do business, whilst respecting local legislation and cultures. We must respond with audacity to the real expectations and expanding horizons emerging in our society.”

Extract from the BNP Paribas Group Engagement Manifesto.

INTERNATIONALLY ACTIVE

An important part of BNP Paribas’ long-term commitment is to counteract global climate change. As a result, we decided to no longer finance companies and projects whose portfolios are negatively associated with climate change. At the same time, we are increasingly investing in companies that sustainably promote energy efficiency and environmental protection.

We select the companies that we support according to ethical criteria and work with them to develop solutions that help them operate more sustainably and more climate-friendly. We have a positive influence on our stakeholders and raise awareness, motivate and influence them to act sustainably. This is also part of our contribution to a responsible and sustainable global development.
SUSTAINABILITY IN PRACTICE
SOME OF OUR MEASURES TO PROMOTE CLIMATE PROTECTION

+ Investment in renewable energy projects to double to 15 billion euros by 2020
+ Supporting start-ups specialising in alternative energies and companies making a clear contribution to implementing the United Nations Sustainable Development Goals (SDGs) with at least 15 per cent of all corporate loans granted
+ No financing of companies and projects related to shale oil, shale gas and oil sands
+ No financing of research and production projects for oil and gas in Antarctica
+ Distancing ourselves from coal mining and the coal-fired power plant business
+ Withdrawal from the tobacco industry

OUR RESPONSIBILITY AS A BANK IS THE FOUNDATION OF EVERYTHING WE DO. WE AIM TO HELP AND SHAPE SOCIETY IN A SUSTAINABLE AND PROGRESSIVE WAY.

Dr Carsten Esbach
COO BNP Paribas Germany

CO₂-NEUTRAL SINCE 2017
We are proud that our business activities have been completely climate-neutral since the end of 2017. We achieved this goal primarily through three initiatives, which we will maintain and further expand in the long term:
- Reduction in CO₂ emissions per employee
- Use of “green” electricity
- Partnerships with environmental organisations
A responsible partner

Of course, we do not only practice this responsibility internationally but in Germany, too. We follow clear ethical guidelines and support our clients by developing sustainable products and solutions. BNP Paribas’ social and environmental responsibility in Germany is underlined by numerous projects and initiatives that contribute to a better future. For example, all 12 business units regularly take part in corporate volunteering projects such as the Malteser Social Day and the nationwide Reading Aloud Day in cooperation with Stiftung Lesen.

AT BNP PARIBAS, WE ARE COMMITTED TO DELIVER FINANCIAL SOLUTIONS WHICH ARE SUSTAINABLE AND HAVE A POSITIVE IMPACT ON SOCIETY.

Jean-Laurent Bonnafé
CEO BNP Paribas Group
THANKS TO CONSISTENTLY GEARING OUR BUSINESS ACTIVITIES TO OUR CLIENTS’ NEEDS, WE HAVE ALSO BEEN ABLE TO DEVELOP THE CONSUMER FINANCE BUSINESS INTO ONE OF THE GROUP’S MAIN PILLARS IN GERMANY.

Gerd Hornbergs
CEO Consors Finance

Since November 2017, BNP Paribas has been involved in the newly founded Green Finance Cluster – an initiative by the Hessian Ministry of Economics, Energy, Transport and Regional Development. The aims of this cluster – made up of financial institutions and research institutions – are to carry out basic work for climate protection and to bundle initiatives that act in the interests of a sustainable financial economy.

The employees at BNP Paribas are working hard for their clients in Germany every single day. We are happy to take responsibility for this strong team, which consists of people from 48 different nations. We promote diversity and inclusion, provide attractive jobs with modern working models and implement a responsible employment policy. We pursue the goal of creating a working environment for our employees in which a balance can be struck between professional duties and private life. To do so, we participate in the berufundfamilie audit, which we have been successfully certified for. We also want our workforce to benefit from the broad positioning of 12 business units in Germany and the Group’s international network and to develop individually.

The BNP Paribas Foundation in Germany
Founded in 2015, the BNP Paribas Foundation in Germany is a stable and responsible partner for social initiatives that improve opportunities for children and young people in particular through education and culture – from reception facilities for refugees to cultural programmes for ill or disadvantaged children. The BNP Paribas Foundation in Germany specifically supports young people who have to overcome hurdles and barriers in their personal lives, for example, due to social disadvantages, a disability, migration or refugee background. The projects it supports bring young people from different backgrounds together, thus contributing to intercultural understanding and cohesion.

A selection of BNP Paribas Foundation projects can be found here: www.bnpparibas.de/en/responsibility/
WE ARE A LOCALLY BASED PARTNER WITH PROFOUND EXPERTISE FOR COMPANIES AND FINANCIAL INSTITUTIONS. AT THE SAME TIME, WE OFFER INTERNATIONAL STAKEHOLDERS A UNIQUE NETWORK WITH OUR WORLDWIDE PRESENCE.

Torsten Murke
Vice Chairman Global Banking EMEA
Corporate & Institutional Banking
BNP PARIBAS HAS PROGRESSIVELY BECOME A LEADING BANK IN GERMANY. WE AIM TO CONTINUE GROWING IN ORDER TO SERVE OUR CLIENTS IN GERMANY EVEN BETTER IN THE FUTURE.

Philippe Bordenave
COO BNP Paribas Group

The BNP Paribas Group invests in innovation of its line of business and relies on strategic partnerships with visionary companies. We are involved in ground-breaking initiatives and offer platforms to discuss and develop new digital solutions. We also invest in promising start-ups to ensure our clients can benefit from the latest technological opportunities to shape and develop their businesses for the future. With all our commitment to exploiting innovation to the fullest, we always handle our partners’ data in a sensitive and confidential manner.

Shaping digital change
As an innovative universal bank, we see digital change as an opportunity. We deliberately make use of the options of the digital world to assist our clients on their way into the future. We support our clients’ business and IT processes across all channels, helping to shape digital change. We are pioneers in specifically applying new technologies so that innovations make sense for our clients. For example, we were one of the first banks to implement blockchain technology live with our clients.

BREAKING NEW GROUND
SOME OF OUR MEASURES TO PROMOTE DIGITAL CHANGE

- Co-founder of the Fintech Europe initiative, which supports start-ups focusing on banks to carry out pilot projects at leading financial institutions
- Strategic partnership with the international innovation platform Plug and Play, which connects start-ups to larger companies and investors
- BNP Paribas performs hackathons with the goal of developing new innovative solutions
- Integration of virtual reality based services that improve the customer journey
- Active use of cross-border real-time payments using blockchain technology
- Investment in start-ups such as Fortia, a Fintech company that intelligently networks artificial intelligence, machine learning and business process monitoring

Arval offers modern solutions for national and international fleets of any size and assists clients with fleet management. In times of mobility change, Arval has set itself the task of providing clients with maximum flexibility, financial predictability and minimum administrative effort for all future changes. 6,500 employees worldwide develop tailor-made mobility solutions for corporate clients, medium-sized companies, large international companies and private individuals. Arval has not dedicated itself to one specific vehicle manufacturer or specific drive types, but instead finds the perfect drive mix for its clients based on their individual mobility profile.

Arval is a 100% subsidiary of BNP Paribas and was founded in 1989. With a fleet of approximately 78,000 vehicles, Arval is the leading provider of multi-brand full-service leasing in Germany. Arval is represented in 29 countries worldwide and services more than one million vehicles. The strategic partnership Element-Arval Global Alliance manages around three million vehicles in 50 countries.
BNP Paribas Asset Management is an independent asset manager offering active, passive and quantitative investment solutions to private investors, companies and institutions. Our in-depth investment expertise covers all asset classes and includes bonds and money market investments, equities, multi-asset solutions & quantitative investments, private debt & real assets as well as Exchange Traded Funds (ETFs).

Responsible and sustainable investing is the basic principle across all asset classes. Ecological, social and entrepreneurial codes of conduct already play a part in the selection of equities and bonds. BNP Paribas Asset Management has a comprehensive range of sustainable investment strategies and regularly publishes its investment funds’ CO₂ footprint. The company is active in 69 countries with around 530 investment experts and 500 account managers and currently manages 421 billion euros in assets.
BNP Paribas Cardif is the globally active insurance division of BNP Paribas. As a B2B2C insurer, Cardif develops insurance solutions for banks, commerce and the consumer goods industry. The range includes individual products such as payment protection insurance, payment default and repair cost insurance as well as mobility and fleet loss insurance. BNP Paribas Cardif develops its own coverage concepts for each of its more than 200 partners, based on each partner’s specific needs.

Founded in France in 1973, BNP Paribas Cardif has its German branch in Stuttgart. The company has been active here since 1996 and looks after more than 4.5 million policyholders with its 185 employees. Gross premiums of over €437 million euros per year underline the leading role of BNP Paribas Cardif Germany in special insurance.

With a comprehensive range of financial services and products, Consorsbank is aimed at individual clients who wish to actively participate in shaping their financial investments. As a digital direct bank, it develops the banking of the future together with its clients in order to pave the way to financial independence and create transparency.

Consorsbank offers its clients a broad range of banking services:
» Free current accounts including cards
» Savings products such as call money or securities savings plans
» Financing offers such as securities or instalment loans
» A wide range of securities trading products – from stocks, investment funds and ETFs to CFDs or Eurex trading

Consorsbank continuously develops its range of products and services in close cooperation with its clients and through its own community. Consorsbank has around 1.5 million clients in Germany and, together with BNP Paribas’ Hello Bank division, is one of the leading direct banks in Europe.
As one of the leading consumer finance providers in Germany, Consors Finanz offers financial solutions that make sales financing for retailers and the payment process at the point of sale and in e-commerce safer, easier and faster – anytime, anywhere. The company thus actively helps to shape the future of digital payment and financing, and allows customers to manage their liquidity entirely online. The focus is on granting personal loans, in particular sales financing in retail and online retail as well as at car, caravan and motorcycle dealers. The product portfolio includes instalment loans for the financing of purchasing desires through to sustainable credit transfers, card products with credit limits, and supplementary insurance and add-on products in collaboration with partners. Customers benefit from this offering directly from Consors Finanz and through associated partners such as trading companies, brokers, banks, or insurance providers.

Consors Finanz focuses on the individual needs of its customers and partners, which are identified through dialogue: from development and implementation to optimisation of clearly understandable products and services. The results are innovative ways to facilitate sales, retain customers and thus ensure sustainable business development. Around 1,500 employees serve around 1.5 million customers and more than 15,000 trading partners in Germany.

A LEADER FOR E-COMMERCE FINANCING IN GERMANY
The Corporate & Institutional Banking (CIB) division builds the bridge between multinational conglomerates and SMEs with international business activities (corporates) on the one hand and institutional investors and financial service providers (institutions) on the other hand. The portfolio extends from strategic consulting and sophisticated capital market transactions to traditional financing and corporate client business through to a broad range of investment and risk hedging instruments as well as global research. The division is a leading provider of sustainable financing and investment solutions.

Around 700 employees are working for CIB in Germany, providing coordinated solutions and supporting clients in meeting the increasing legal and social requirements for their ecological and social responsibility. More than 35,000 employees worldwide support around 18,000 corporates and institutions networked in 56 countries.

*Numbers include BNP Paribas Securities Services

WORLD’S BEST BANK FOR SUSTAINABLE FINANCE (EUROMONEY 2018)

cib.bnpparibas.com
DAB BNP Paribas is a custodian bank and specialised securities processor for independent asset managers, fund brokers, investment consultants and institutional clients. The company sees itself not only as a service provider, but above all as a partner and promoter of the joint independent asset management business model. DAB BNP Paribas is the ideal platform to support independent financial service providers in their day-to-day work with additional services such as marketing and sales support, advanced training as part of the DAB Academy, events and the “DAB Start!” start-up service.

In Germany, more than 60 per cent of all financial portfolio managers licenced by BaFin already manage their end client portfolios with DAB BNP Paribas, making the company the market leader in this segment. With over 42,000 funds from more than 350 AMCs, DAB BNP Paribas has been one of the largest fund platforms for institutional investors in Europe since 1994: banks, insurance companies, pension funds and trustees. Another strategic focus is on the Fintech target group. Clients are supported on their way to a digitised business model by consistently expanding the technology on offer.
BNP Paribas Factor offers tailor-made factoring financing solutions for SMEs as well as large companies and corporations in Germany, Austria and Switzerland. It offers its clients a wide range of products and services covering all factoring variants for working capital optimisation. These include off-balance sheet and classic factoring solutions recognised under IFRS as well as individual receivables financing and international financing solutions.

BNP Paribas Factor is part of the international BNP Paribas Factoring Group, which is represented in 17 countries worldwide. Multinational companies can also be supported thanks to the international network. With 20,000 clients worldwide and more than 50 years of expertise in the market, BNP Paribas Factor is the European market leader in factoring.
BNP Paribas Leasing Solutions is the specialist for financing commercial equipment investments. As a leading provider of purchase and sales financing in Europe, BNP Paribas Leasing Solutions supports the growth of manufacturers and dealers with innovative rental, credit and leasing solutions for movable capital goods. Supplementary insurances, maintenance and servicing ensure a comprehensive solution.

Leasing gives companies the flexibility and investment potential they need to keep pace with market developments, digitalisation and accelerated innovation requirements.

BNP Paribas Leasing Solutions financed 357,000 investment projects with a total volume of 12 billion euros in 2018. 3,400 employees support the growth of clients and partners in 15 European countries, China, the United States and Canada. BNP Paribas Leasing Solutions has been active in Germany since 1985 and has its head office in Cologne. The company has 330 employees there and generated a new business volume of 3.1 billion euros in 2018.

leasingsolutions.bnpparibas.de
BPN Paribas Real Estate, one of the leading real estate service providers in Europe, offers comprehensive services in all phases of the real estate cycle for all types of property: from offices, industry and logistics to retail and hotel as well as land and residential real estate. The company helps clients in their search for new premises as well as in optimising space and is an expert on issues relating to “working in a green office”. For investors, the real estate consultants find crisis-proof investment products that fit perfectly into the individual purchasing profile, develop sustainable strategies for existing portfolios and employ professional property managers.

Every purchase and sale, every leasing and letting of a property is a strategically important decision. BNP Paribas Real Estate Germany supports its clients with expertise, commitment, in-depth market knowledge and 810 employees at eleven locations. The company works in the areas of transaction, consulting, valuation as well as property and investment management.
BNP Paribas Real Estate Investment Management (REIM) is one of Europe’s leading capital management companies for real estate funds and real estate loan funds. In addition to traditional German real estate special funds in accordance with the German Investment Code, the company offers a broad range of tailor-made and innovative concepts: Luxembourg vehicle, service and master capital management company solutions or separate accounts. From market research and property acquisition to portfolio and asset management, all conceptual and administrative measures are in the hands of experts.

BNP Paribas REIM uses its many years of expertise on the real estate markets, its strong network and a flexible modular system of services to create attractive and high-yield products for both individual and collective investments. The company has around 350 employees in eight countries and manages 28.7 billion euros in assets across Europe.
BNP Paribas Securities Services provides asset servicing for investment funds, securities and alternative investments throughout the investment process. The company offers the value chain for all client segments from one single source: from innovative product solutions for institutional investors, asset managers, capital management companies, alternative investors, banks and brokers to services for issuers. Top priority is given to security and reliability in handling the clients’ investments.

335 experienced employees in Germany develop integrated digital solutions and take over the operational processes. BNP Paribas Securities Services finds ways to successfully manage clients’ investment strategies, even in complex, fragmented markets, and reliably assists them in meeting the increasing regulatory and digital requirements. BNP Paribas Securities Services is the largest custodian in Germany for securities, real estate and asset funds and one of the five leading global custodians worldwide.

With 377 billion Euros in managed assets, BNP Paribas is the largest wealth manager in the Eurozone and has more than 150 years of experience in services for high-net-worth private clients, in the management and structuring of large portfolios, succession planning and financing solutions.

BNP Paribas Wealth Management places the focus of its advisory, service and product offerings in Germany on the needs of high-net-worth private clients with two divisions, Wealth Management and Private Banking, and draws on the know-how of international expert teams in the BNP Paribas Group in the process.

The Private Banking division combines experience in personal advice and management of large asset portfolios across all relevant asset classes with the possibilities of digital banking. Consobank as a partner within the BNP Paribas Group acts as a driver of innovation here. The customer thus experiences an entirely new generation of the private bank.

The Wealth Management division provides a wide-ranging variety of tailored solutions for the complex requirements of high-net-worth clients such as entrepreneurs and their families in particular, from securities portfolios through real estate investments and financing solutions to alternative investment and, in the process, makes use of the strengths of all divisions of BNP Paribas in Germany and around the world.

With a regional presence and a global network, BNP Paribas Wealth Management is represented in eight locations in Germany (Berlin, Frankfurt, Hamburg, Hanover, Cologne, Munich, Nuremberg and Stuttgart).
